

Acibadem University's mission is to be an academic institution which creates a model for Turkiye and which is shown as a reference worldwide, with its high level of academic excellence. We are dedicated to instruct students to appreciate ethical and humanitarian values and comply with modern, innovative and pioneering practices.

We built on and developed our internationalization and modernization strategy in line with our mission.

The core objectives for the period 2021-2027 will be continue to develop programme opportunities at all levels with an international perspective and knowledge, to enable students enhance their academic and social experience for future employability, for preparing them as leaders of the future as global citizens and also increase the number of international partnerships to deliver our programmes and opportunities for incoming international students, who bring cultural enrichment to our university.

Within the scope of our core objectives, our strategy has been expanded with the following details;

- Increase the number of departments internationally recognized and accredited
- Multiply our partnerships to increase both the quality and quantity of mobility and widen opportunities in all cycles
- Strengthen our existing collaboration to increase the number of reciprocal mobility
- Implement international projects with current and prospective partners
- Develop study programmes in English for all faculties and departments to attract more international students
- Increase the diversity of our student body from wider range of countries
- Offer some the programs with distance education for the benefit of students with fewer opportunities
- Ensure our high quality education with cutting-edge digital technologies
- Participate in Key Action 2 and Key Action 3 actively

Erasmus programme offers its participants the opportunity to cooperate with international institutions and enterprises. With these opportunities, international projects are developed which contributes to scientific life.

Through the programme, individuals with fewer opportunities are able to go abroad. The opportunities offered by the international experience increase academic success and their self-confidence of students. In addition, with the civic engagement activities, which are one of the basic principles of the programme, the social awareness and personal competencies of students are expanded. By being exposed to different cultures, students respect their values and therefore acquire the potential to contribute to world peace. Students with improved academic knowledge and individual awareness, contribute to the constant renewal of their universities' vision and modernization Erasmus programme funds supports universities to develop projects not only in the academic field but also social areas. With entire projects, student's awareness to the environment and social events are increased, which contribute to the aim of sustainable world.

Academicians who participate in the program individually or within the scope of projects will share their achievements and ensure that students who cannot participate in the mobility will also benefit and thus increase the education quality of the university.

In view of the vast possibilities for students and personnel, Acıbadem University acknowledges that the Erasmus programme plays a vital role in building its internalization and modernization strategy and also provides the incentive to share its academic expertise and facilities with its partners and stakeholders, with which it shares common values.
